RE: Guam Department of Public Works Infrastructure Resilience: Flood Prevention and Public Safety CPF

Dear Chairman Cole and Ranking Member DeLauro:

I am requesting funding for Flood Prevention and Public Safety Infrastructure Resilience in fiscal year 2026. The entity to receive funding for this project is Guam Department of Public Works located in 542 North Marine Corps Drive, Tamuning, GU 96913. The project is an appropriate use of taxpayer funds because significantly improving public infrastructure resilience, disaster response capabilities, and environmental safety will directly reduce flood risks, protect residential and commercial properties, and ensure the continued functionality of critical roadways and drainage systems.

The project has a federal nexus because the funding provided is for purposes authorized by Section 306 of the Consolidated Farm and Rural Development Act, 7 U.S. Code section 1926(a).

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

Member of Congress
